HardWear began as a single bracelet rendered in bold, raw forms. A design from 1962 inspired by Manhattan: a city in flux, a place of liberated inhibitions and where love took on new meanings. Like Manhattan, Tiffany HardWear embodies this enduring resilience and ability to be free.

A signature gauge link serves as the Tiffany HardWear collection’s anchor—a bold motif that comes to life in both singular iterations, seen in earring and pendant styles as well as continuous chain wrap bracelets, necklaces and rings. Innovative, artfully engineered clasps create seamless canvases for detachable ball and lock charms, unexpected pearl accents as well as asymmetrically placed pavé diamond links, hand set by Tiffany artisans for maximum brilliance.
