

NEW YORK, NY (October 23, 2023)—Tiffany & Co. today announces the debut of its latest jewelry collection: Tiffany Forge. Crafted from sterling silver, Tiffany Forge celebrates the unique path that every individual creates. With a design that showcases links that are not closed; rather, they are open and unrestricted, the collection symbolizes a sense of openness to the twists and turns of life. Tiffany Forge pays tribute to the House’s long tradition of crafting sterling silver masterworks, a metal that is deeply engrained in the House’s heritage. Over a century ago, Tiffany & Co. set the U.S. standard for sterling silver purity (9.25 parts per 1,000 parts silver) and Tiffany Forge honors this legacy. When conceptualizing the collection’s signature open-link motif, Tiffany & Co. designers reimagined designs from the Tiffany Archives.

“Tiffany Forge and the collection’s signature open-link motif proudly honor our exceptional craftsmanship and showcases our hollowware workshop capabilities,” said Alexandre Arnault, Executive Vice President, Product and Communication, Tiffany & Co. *“Each design has a bold look and feel. The silver collections have always been an integral part of our legacy and we are excited to expand our silver offering to include Forge.”*

The full suite of the new Forge creations is featured in multiple expressions of an open-link motif with bold designs, offered in either high-polished or blackened sterling silver. The collection will include both narrow and wide chain iterations in necklaces, bracelets, rings, and earrings that play with scale and dimensionality.

The collection will be available at Tiffany & Co. stores globally, as well as on Tiffany.com, in October.
